Ophthalmology segment would be the most lucrative segment for investment in the ablation devices market for the new as well as existing players. This is because there are numerous players, products, and patents already available in the market for cancer and cardiology ablation devices, making the competitive rivalry intense. However, ophthalmology segment has untapped areas that could provide great opportunities for new entrants as well as existing players.

Thermal segment dominated the world ablation devices market in 2015 and is expected to continue with its dominance throughout the forecast period. This is attributed to the various applications of thermal ablation devices for cancer and cardiovascular surgeries. However, owing to the higher success rate and advantages, non-thermal technologies is estimated to be the fastest growing segment propelling at an estimated CAGR of 17.7%.
