“

Manufacturing and selling companies dealing with tripod are facing issues in production as factories are shut down, supply chain is fully disrupted due to corona virus.”

Shankar Bhandalkar

Increase in interest of people in photography whether opting it as a professional career or just as a hobby has increased the usage of tripod. As photography is currently a trending hobby, and to get a perfect click tripod is a very useful equipment. For professional photographers, tripod is a basic equipment that can be used with lot of features. Social media is also one of the factors that increases its demand among its users. YouTubers are using it to record their video without the need of any other person to control or hold the camera.

Companies are continuously bringing new technologies in the tripod series, and launching new tripods with latest features. Tripods offer stability on uneven ground and are sturdy and light weight. They can tilt the camera to a full 90 degrees, and shoot in portrait mode. They come with

adjustable height, and have built-in bubble head to adjust horizontal position. These features boost the growth of the market.

The Covid-19 pandemic has a vital impact on the growth of the global Tripod market and altered several market scenarios. The lockdown across various countries and ban on international travel has disrupted the supply chain and revenue chain. The report includes a thorough analysis of the Covid-19 pandemic on the growth of the global Tripod market.
