Increase in disposable income and rise in trend of precious stones and jewelry as a status symbol are appealing to consumers and attracting them toward choosing a premium product. Diamond is a precious stone and cost is expensive than any other stones, moissanite is used as a substitute for diamond in rings, earrings, bracelets, and pendants. These following factors drive the market growth at a global level. As some of its properties are quite similar

to diamonds, moissanite can be used for scams, which hampers growth of the market. Market players are bringing in innovations in products using technology advancements and design enhancements to keep the demand constant.

New products that contain improved capabilities have been launched by leading market players. They have been focusing on market developments and trends, in terms of advancements of manufacturing process and increase in product lines as per diverse consumer demands.

Moissanite occurs as a silicon carbide and is used in creation of LED light bulbs. CREE Inc, a company that makes gem grade raw moissanite crystals for Charles & Colvard, is one of the world leaders in LED light manufacturing and research and development.

Geographically Analysis - North America (the US, Canada, and Mexico), Europe (Germany, UK, France, Italy, Spain and the Rest of Europe), Asia-Pacific (China, Japan, India, Australia, Malaysia, Thailand, Indonesia, and the Rest of Asia-Pacific)
