The report also offers details about market size, market share, revenue growth, and CAGR during the forecast period of 2021-2027. The report also offers key insights about top companies in the market along with a thorough SWOT analysis, Porter's Five Forces analysis, and feasibility analysis to offer competitive edge to the readers. The report focuses on the recent trends, major challenges and opportunities, and limitations pertaining to the ongoing pandemic.

key findings from the report

Based on Compound, THC dominates the industry share attributed to the fact that this compound contains the psychoactive substance in marijuana products and is responsible for the head high feeling. Even though high THC content is better known for its mind-altering euphoria, it has significant medical benefits and is considered useful in relieving nausea, appetite loss, and insomnia.

Geographically, North America, especially the United States and Canada, dominates the market. The recent legalization of marijuana taken place in the North America segment for medical purposes has been a significant driver of marijuana market growth. Other major sections include Europe (Germany, Italy, France, the Netherlands, and Spain), Asia Pacific, Latin America, and the Middle East and Africa.
