Birthing Moon by Kimberly Berg

Kimberly Berg grew up in Wisconsin. He has stirred the old goddess! A male pro-feminist craftsman, Berg's work challenges the patriarchal framework that has advanced to rule our world by uncovering it as a framework that is not as it were unworkable and unsustainable but moreover unjust. Guided by the ancient record, which appears to prove that pre-patriarchal Neolithic social orders regarded and honored their ladies, Berg accepts that we are drawing nearer the tipping point of patriarchal dominance as ladies pick up the certainty to recover their inborn bequest. And to be beyond any doubt, a women's activist change is underway. Berg has hurled the ultimate stones vital to tip the scale by propelling a campaign to teach the open on the history of women's culture and the components that driven its terrible oppression.

“

I wanted to preserve the freedom to create whatever inspired me. Eventually, that led me to concentrate on drawing the human figure.”
