

Space Force Association launches Committee on Women in Space, names renowned scientist Dr. Lois Wardell to lead effort

Wardell's experience in the space industry and across several scientific disciplines makes her uniquely qualified for this important role.

COLORADO, UNITED STATES, December 5, 2021 /EINPresswire.com/ -- Lois Wardell, Ph.D.

With the creation of the Committee on Women in Space, under the leadership of Dr. Wardell, we hope to provide networking, mentorship & encouragement to women who are engaged in all aspects of space."

SFA founder and president Bill Woolf (Col. USAF Ret.)

(Geoscience), has been named to a newly created leadership role the United States [Space Force Association](#) (SFA). Dr. Wardell's specific focus will be to launch the new SFA's Committee on [Women in Space](#) (WinS). Wardell's experience in the space industry and across several scientific disciplines makes her uniquely qualified for this important role. Currently, she is a Senior Space Test Engineer at [Galapagos Federal Systems, LLC](#). (SFA corporate partner) serving USSF and the new Space Training and Readiness Command (STARCOM) in the standup of the National Space Test and Training Complex (NSTTC). This follows her work in leading technical concept development to address USAF technology gaps. With a passion for technology development, Dr. Wardell worked

for over a decade with unmanned systems R&D and is highly recognized as an entrepreneur, innovator and research scientist. Dr. Wardell's doctoral research was supported by fellowships from NASA and the U.S. Department of Energy and she was a Post-doctoral Fellow at the Natural Sciences and Engineering Research Council of Canada. Her work is recognized as a standard of excellence in several disciplines.

When asked to comment on her role as the founding chair for the SFA's Committee on Women in Space, Dr. Wardell remarked, "The space industry has grown exponentially, and there is a strong need for a professional women's organization. I am grateful the SFA stepped up to make this possible." She continued by stating, "Women in Space encompasses a broad community in government, industry, academics, and the military. We hope this will become a platform for women to help each other throughout the space sector." Women interested in becoming a member of the SFA and being a part of this networking opportunity should contact Dr. Lois

Wardell at lois.wardell@ussfa.org.

According to SFA founder and president Bill Woolf (Col. USAF Ret.), "Diversity is critical to the success of the new service and providing opportunities for everyone interested in the supporting a strong USSF is one of SFA's goals. With the creation of the Committee on Women in Space and under the leadership of Dr. Wardell, we hope to provide networking, mentorship, and encouragement to women who are engaged in all aspects of space as well as those who may be considering a career in space exploration, research, or as a Guardian."

The Space Force Association is an independent, 501(c)(3) non-profit organization that serves as a professional military association supporting the United States Space Force, United States Space Command, and U.S. national spacepower at

large. Its core functions are to research, inform, and advocate to achieve superior national spacepower by shaping a Space Force that provides credible deterrence in competition, dominant capability in combat, and professional services for all partners. In addition, the SFA has an essential function to provide support for the men and women of the U.S. Space Force. Membership is open to both military and civilians. For more information on the SFA, please visit www.ussfa.org.

Galapagos Federal Systems, LLC – SFA Corporate Partner
