

ROOMNET to provide in-room Viator (a TripAdvisor company) bookings on Apple TV

Hotel guests can now book activities during their stay from their guestroom TV and the hotel receives commission.

SAN CLEMENTE, CALIFORNIA, USA, December 6, 2021 /EINPresswire.com/ -- [ROOMNET](#) provides a sleek, modern and easy to use guest entertainment solution for hotels, based on its Apple IPTV platform. Guests get to enjoy the best of linear TV content, but also their own favorites like Disney+, Netflix, Amazon Prime, Hulu, TV + and much, much more!

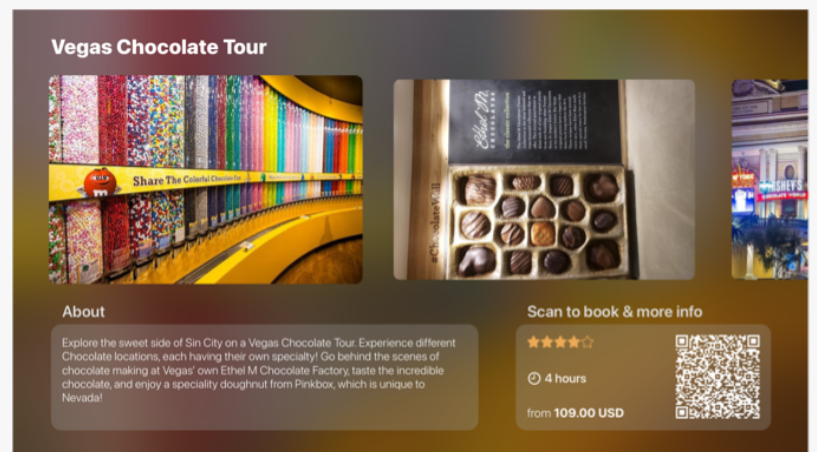

More than ever, hotels have had to become highly cost conscious and actively look for ways of reducing costs and/or increasing revenue!

In its quest to enhance the TV experience for guests and provide added value to the hotel, ROOMNET is proud to announce its partnership and integration with [Viator](#). Guests can browse and book their favorite local activities or get inspiration on things to do when staying in their hotel, right on the TV and in glorious 4k!

Darren King, CEO of ROOMNET had this to say "The Apple platform gives us great flexibility to build customised Apps that can develop and change as Apple tvOS evolves. This latest free-add-on to our solution will finally allow hotels to gain significant income from their TV solution. Just one \$100 activity booked per room per month, will cover the running costs of our solution! Viator's content and global reach is immense, making them the perfect partner to deliver these services to guests."
