Model and Actor Bernard Fisher Breaks In Literary Scene with Book Titled Our Parents Sins Breaking The Cycle

FRANKFURT, HESSE, GERMANY, December 6, 2021

/EINPresswire.com/ -- Bernard Fisher's *Our Parents Sins Breaking the Cycle* is an insightful memoir that chronicles the author's attempt to unsnarl the past with the hope of healing the present and gaining better knowledge to break away from generational cycles of transgression. Published by Litfire Publishing, the book is a powerful encouragement to confront the past rather than suppress it.

The present is a confluence of the past and the future; events of the past hold a great influence on the present which holds the key to the future; frequently, we're oblivious of the weight of our choices and the factors of their formation — these are just some of the themes discussed in Bernard Fisher's memoir. The author writes, "God has given us all the choice of free will but

unfortunately, humanity has taken it for granted. The naivety of mankind not being aware of the power in choice, or how it affects souls especially within a family. The repercussions to some of our choices that are made can last for generations." Fisher urges his readers to connect with their inner child to unravel family secrets and in turn healing deep within. We can only fulfill our

purpose if we can manage to break away from generational sins.

“
