

GenieMD Announces Partnership w/ Linc Who Adopts CONTINUUM Virtual Care Platform for Remote Patient Monitoring Services

Extending Care from the Doctor's Office to the Home.

SAN FRANCISCO, CALIFORNIA, UNITED STATES, December 7, 2021

/EINPresswire.com/ -- [GenieMD, Inc.](#)

("GenieMD"), Sixty percent of healthcare C-suite and clinical leaders are projected to view RPM as a new standard of care in the next 24 months according to a recent study covered in Healthcare IT News. GenieMD, provider of a HIPAA-compliant, cloud-based, virtual care services platform is proud to announce Linc.health has adopted CONTINUUM, as its Remote Patient Monitoring Service Platform.

"Extending care from the Provider's office into the home – LINC's adoption is yet another validation point that GenieMD's Remote Patient Monitoring provides a rich feature set to establish a new standard of care. If we are going to get to value then monitoring patients in the home is just as important as the visit in the office." said Thomas Foley, Chief Growth Officer, of GenieMD.

GenieMD, previously recognized as "The Most Innovative Telemedicine Solution Provider" continues its advancement of democratizing healthcare. Their virtual care platform, CONTINUUM, supports adopters to deliver telehealth, remote patient monitoring chronic care management and clinical call center triage services from a single platform. Most often the CONTINUUM virtual care platform is white-labeled to advance the presence of our clients in their respective communities.

"Linc currently monitors over 15,000 lives via GenieMD's Remote Patient Monitoring solution," said, Robert Kent, Co-Founder, of Linc Health, "The robust capabilities of CONTINUUM combined with the ability to customize care protocols for patients has been a real game changer for us and
