In patients with periodontal disease or oral cancer, dental membranes and bone graft substitutes are utilized in dental bone regeneration procedures. Dental membranes are used in association with dental bone graft to permit cell growth throughout the regeneration process. The global dental membrane and bone graft substitute market players can expect significant growth prospects as demand for dental implants for bone regeneration rises.

The global dental membrane and bone graft substitute market in 2018 were estimated at around US\$ 745.0 million and is expected to grow at a 9.1% CAGR during the forecast period from 2019 to 2027.

Rising prevalence of some oral conditions such as oral cancer and periodontal diseases, the increasing product releases, and the growing implementation of expansion initiatives by major manufacturers are a few of the primary factors driving the global dental membrane and bone graft substitute market growth.

Over the forecast period, the global dental membrane and bone graft substitute market is expected to rise due to an increase in the prevalence of oral health conditions such as oral cancer and periodontal diseases. For instance, according to an article released in 2015 by the National Center for Biotechnology Information (NCBI), Assessment of the Status of National Oral Health Policy in India, the incidence of oral disorders is excessive in India, with dental cavities being the most common. The report states that in 5, 12, 15, 35-44, and 65 - 74-year-old people, incidence rate is 50.0 %, 52.5 %, 61.4 %, 79.2 %, and 84.7 %, respectively.

Furthermore, the global dental membrane and bone graft substitute market is expected to grow due to increased product development and manufacturers focusing on fulfilling the demand for effective therapeutics during the forecast period. For instance, according to the National Oral Health Survey of India, the incidence of periodontal disease stood around 79.9% in people aged 65 to 74, while the prevalence of oral cancer remained around 12.6 for every 100,000 people in 2016- 2017.

Moreover, severe government regulations and the high cost of bone graft procedures are hindering the global dental membrane and bone graft substitute market growth during the forecast period. Several government policies are preventing community healthcare centers from expanding networks in rural areas, limiting their expansion and generate sales. Moreover, China has a development policy that focuses on urban areas. Owing to this government regulation, community healthcare centers are unable to grow the network in rural areas, limiting their expansion and generate sales.

The global dental membrane and bone graft substitute market growth is expected to propel due to growing patient population, as well as collaborations and acquisition strategies.

Due to increased product approvals, Europe is expected to account for the largest share in the global dental membrane and bone graft substitute market during the forecast period. For instance, Datum Dental obtained the CE Mark in June 2018 for Ossix Bone, a biomaterial for regeneration of bone after dental procedures in Europe. Hydroxyapatite and Collagen are the main components of Ossix Bone. In the generation of cartilage, collagen bone, blood vessels, and skin, the biomaterial replicates the natural glycation process.

Key manufacturers are using growth tactics including acquisition to grow the availability of the product in new areas, which is projected to drive the global dental membrane and bone graft

substitute market growth over the forecast period. For instance, LifeNet Health acquired AlloTiss Gemeinnutzige Gewebebank GmbH, an Austrian tissue bank in 2017. Lifenet Health expanded its geographic footprint throughout Europe with the help of this acquisition.

Key players operating in the global dental membrane and bone graft substitute market are LifeNet Health, RTI Surgical Holdings, Geistlich Pharma North America Inc., Dentsply Sirona Inc., Citagenix Inc., Zimmer Biomet Holdings, ACE Surgical Supply Company, BioHorizons Inc., and Institut Straumann AG.
