

Agenda Released for 15th Annual International Biomass Conference & Expo

Produced by Biomass Magazine and BBI International, the event is the largest gathering of biomass industry stakeholders in the world.

JACKSONVILLE, FLORIDA, UNITED STATES, December 7, 2021 /EINPresswire.com/ -- [Biomass Magazine](#) released the agenda last week for the 15th Annual [International Biomass Conference & Expo](#) taking place March 14-16, 2022 at the Prime F. Osborn III Convention Center in Jacksonville, Florida.

INTERNATIONAL 15th Annual
BIOMASS
CONFERENCE & EXPO
March 14-16, 2022
JACKSONVILLE, FL

Organized by BBI International and produced by Biomass Magazine, the conference brings current and future producers of bioenergy and biobased products together with waste generators, energy crop growers, municipal leaders, utility executives, technology providers, equipment manufacturers, project developers, investors, and policy makers.

"We are excited to bring the in-person event to Jacksonville, Florida," said John Nelson, vice president of operations, marketing & sales for Biomass Magazine. "The Southeast United States has become a hub for biomass activity, making it a great location for companies looking to connect with producers within the industry."

This year the event starts a half day earlier, providing more content than in previous years. Attendees will be able to take in content from a variety of speakers showcasing the newest offerings in technology, services, and policy.

"The response to our call for abstracts was tremendous," said Tim Portz, program developer for BBI International. "The International Biomass Conference & Expo agenda is robust, expansive and runs the gamut of biomass-to-energy approaches."

The speakers will discuss a variety of topics in the biomass industry under the following categories:

- Pellets & Densified Biomass
- Biomass Power & Thermal
- Biogas & Renewable Natural Gas (RNG)
- Advanced Biofuels & Biobased Chemicals
- Sustainable Aviation Fuel (SAF)

"I'm excited by the number of topics that generated multiple panels this year, said Portz. "Our attendees can take deep dives on sustainable aviation fuels, biogas project development, fire and explosion protection and the trajectory of low-carbon markets in both domestic and global energy markets."

The conference will begin on Monday, March 14th at 1:00 pm (EST) and will be open to all registered attendees and exhibitors. Producers of biomass power & heat, pellets and densified biomass, biogas and RNG, advanced biofuels and biobased chemicals, and sustainable aviation fuel, receive a complimentary registration to attend the entire event.

About Biomass Magazine

Biomass Magazine is a quarterly trade publication tailored to serve companies and organizations engaged in producing or utilizing biomass power and heat, advanced biofuels, biogas, wood pellets and biobased chemicals. In addition to policy, regulation, project finance, technology, and plant management, the publication maintains a core editorial focus on biomass logistics. Its international readership includes owners and managers of biomass power, CHP, and district heating facilities; pellet manufacturing plant owners and managers; professionals working in captive feedstock industries-from food processing and waste management to agriculture and forest products manufacturing-and a growing number of industrial manufacturers, municipal decision makers, researchers, and technology providers engaged in biomass utilization in 40 countries. Biomass Magazine is committed to editorial excellence and high-quality print production and distribution.
