

# KPI Ninja Named to Inc.'s 2021 Best in Business List

*Healthcare Technology Company has been awarded the Silver Medal in the Micro Company Size (10-49) category.*

LINCOLN, NEBRASKA, UNITED STATES, December 7, 2021 /EINPresswire.com/ -- KPI Ninja has been named to the Inc. 2021 Best in Business list in the Micro Company Size (10-49) category. Inc.'s Best in Business Awards honor companies that have gone above and beyond to make a positive impact.

The list, which can be found in the Winter issue of Inc. magazine (on newsstands December 14), recognizes small- and medium-size privately held American businesses that have had an outstanding influence on their communities, their industries, the environment, or society as a whole.

“

It's an honor to be recognized by Inc. Best in Business and ranked among other passionate innovators in the country. ”

*Vineeth Yeddula, CEO, KPI Ninja*

“It's an honor to be recognized by Inc. Best in Business and ranked among other passionate innovators in the country. At KPI Ninja, we feel the way to improve our healthcare system is through data-driven strategies,” said Vineeth Yeddula, KPI Ninja's CEO. “The demand for interoperability among care professionals is growing alongside national efforts to improve the cost, quality and efficiency of our health care system. As a technology company rooted in process improvement principles, we witness the ample opportunity that exists to become a more data-driven

health care system.”

KPI Ninja is a use-case driven technology company that focuses on empowering care teams to improve the health care enterprise by reducing data burdens and providing analytic insights. This recognition is a demonstration of their mission-driven approach to providing technology solutions fit to the needs.

Scott Omelianuk, editor-in-chief of Inc., says, “What began for us during the pandemic as an effort to showcase companies that were helping the community has grown into a recognition of social, environmental, and economic impact. The companies on this year’s list are changemakers with heart – and they’re pouring the best of their business into the people and communities around them.”

Rather than relying on quantitative criteria tied to sales or funding, Inc.’s editors reviewed the companies’ achievements over the past year and noted how they made a positive difference in the world. They then selected honorees in more than 49 different industries – from finance to software to engineering to fashion, and more – and in age-based and revenue-based categories. The applicant pool was extremely competitive, with around 2,700 entries and an acceptance rate in the low single digits – a huge success for these honors in the list’s second year. Honorees for gold, silver, bronze, and general excellence across industries and categories are featured online at [inc.com/best-in-business](https://www.inc.com/best-in-business).
