Sparkling wine is a variant of wine with a high amount of carbon dioxide. This leads to a significant amount of bubbles in the wine. One of the most widely popular type of sparkling wine is the Champagne. Champagne is the name for the wine manufactured from the Champagne region in France, although many sparkling winemakers in the U.S. use the term for their locally manufactured products as well.

Impact of COVID-19 Pandemic on Sparkling Wine Market

Sparkling winemakers have been significantly affected by the scarce availability of workers during the COVID-19 pandemic, which hampered their production capacity. In addition, the shutdown of wholesale markets has compelled manufacturers to rely primarily on supermarkets and e-commerce dealers to sell their sparkling wine products. Despite the pandemic, there has been a rise in the sales of rose and sparkling wine.
