

First NFT-Art 2.0 sold: MANTHEY Porsche 911 GT3 R “Grello”

Meta Artist Glorian Gears sold his first NFT-Art 2.0 from the “KING OF THE RING” edition for more than 50,000 USD.

NEW YORK, NEW YORK, USA,
December 8, 2021 /EINPresswire.com/
-- Meta Artist Glorian Gears has successfully positioned himself in the international art scene. His first NFT-Art 2.0 convinced the critics and sold for over 50,000 USD at NIFTEE, an NFT Art Platform. It is the first piece of art from his “KING OF THE RING” edition which is focusing on race cars captured in the instant of triumph.

Glorian Gears - King Of The Ring

This first “KING OF THE RING”, the MANTHEY Porsche 911 GT3 R “Grello” was captured at the moment of his biggest triumph in motorsport when he won the legendary 24-hour race at Nürburgring this year.

“

NFT-Art 2.0 is the future. We are already working on the next project. It will be a legendary race car that was used in a well-known Hollywood movie.”

Glorian Gears

NFTs from Glorian Gears is attractive for collectors due to its a combination of unique art style, the technology behind the art and the spectrum of possible uses these kind of art offers in the digital world.

Glorian Gears and his team capture art at a temporal moment in its unchanged, original state using specialized methods and equipment as employed in digital

conservation of UNESCO Cultural Heritage artefacts. The result is a digital original, a high end 3D piece of art which carries the special moment of its emergence in itself. NFT-Art from Glorian Gears can therefore be used in existing and upcoming metaverses, a unique feature which is highly praised by art collectors.

Another feature which attracts a lot of attention, is the possibility of reconstructing. Digital Original 3D Art always provides the possibility to reprint the 3D model even if the real world

object does not longer exist. Glorian Gears NFT-Art 2.0 therefore captures originals for eternity.

Glorian Gears is already working on the next project. It will be a legendary race car that was used in a well-known Hollywood movie. More will be announced soon.
