

Drug Infusion Systems Market Study Report Based on Company Profile , Key Vendor , Future Growth

Market Trends – Increasing technological advancements such as flow monitoring and micro-flow regulator

VANCOUVER, BC, CANADA, December 8, 2021 /EINPresswire.com/ -- [drug infusion systems market size](#) reached USD 10.56 Billion in 2020 and is expected to register a CAGR of 7.1%, during the forecast period, according to latest analysis by Emergen Research. Increasing demand for safe and precise drug delivery systems is a key driver expected to drive global drug infusion

systems market revenue growth over the forecast period. Increasing application of drug infusion systems for chronic pain management is expected to further propel revenue growth of the global drug infusion systems market in the near future. Increasing integration of advanced equipment and up-gradation of drug infusion systems, such as flow monitoring and micro-flow regulators, is expected to boost global drug infusion systems market revenue growth going ahead.

However, lack of skilled healthcare professional to operate drug infusion systems is expected to hamper growth of the global drug infusion systems market to a certain extent over the forecast period.

The report aims to offer a clear understanding of the market with respect to the manufacturers, suppliers, vendors, distributors, and key companies involved in the market. The report has been formulated through extensive primary and secondary research along with verified and reliable data obtained from industry experts and professionals. The key findings from the report have been sorted into charts, figures, tables, and other pictorial representations.

Detailed Regional Analysis Covers:

North America

Canada

U.S.

Mexico

Europe

Germany

Italy

U.K.

Rest of EU

Asia Pacific

India

China

Japan

South Korea

Rest of APAC

Latin America

Brazil

Argentina

Rest of Latin America

Middle East & Africa

Saudi Arabia

South Africa

U.A.E

Rest of MEA

Emergen Research has segmented the global drug infusion systems market on the basis of control systems, infusion type, administration route, application, end-use, and region:

Control Systems Outlook (Revenue, USD Billion; 2018–2028)

Open Loop System

Closed Loop System

Infusion Type Outlook (Revenue, USD Billion; 2018–2028)

Continuous Infusion

Intermittent Infusion

Patient Controlled Infusion

Total Parenteral Nutrition

Administration Route Outlook (Revenue, USD Billion; 2018–2028)

Enteral

Subcutaneous

Intravenous

Arterial

Epidural

Application Outlook (Revenue, USD Billion; 2018–2028)

Pediatrics

Diabetes

Nutrition

Hematology

Analgesia

Chemotherapy

Others

End-Use Outlook (Revenue, USD Billion; 2018–2028)

Diagnostic Centers

Hospitals

Ambulatory Surgical Centers

Others
