

Face Mask Market High Demand, Recent Trends, Future Growth, Industry Analysis, Forecasts Research

Increasing number of surgical procedures in hospitals is a significant factor driving global face mask market growth

VANCOUVER, BC, CANADA, December 8, 2021 /EINPresswire.com/ -- [face mask market size](#) was USD 76.72 Billion in 2020 and is expected to reach a significantly smaller size of USD 58.17 Billion in 2028, and register a decreasing growth rate of 5.2% from 2021 to 2028, according to latest analysis by Emergen Research. Market revenue is expected to register a CAGR of 8.5% from 2020 to 2022 due to the drastic surge in demand for face masks due to COVID-19 pandemic in 2020 and the onset of the second wave in 2021.

Before 2020, face masks were generally used in healthcare facilities during surgeries/operations and by industrial workers and people staying in highly polluted areas. Also, consumer awareness about benefits of face mask was low earlier, unlike during the pandemic. However, during the pandemic, face masks witnessed a spiraling increase in demand, which is expected to gradually trend downward as the situation comes under control in the latter part of the forecast period, leading to a decreasing growth rate of the face mask market in late 2021.

The report aims to offer a clear understanding of the market with respect to the manufacturers, suppliers, vendors, distributors, and key companies involved in the market. The report has been formulated through extensive primary and secondary research along with verified and reliable data obtained from industry experts and professionals. The key findings from the report have been sorted into charts, figures, tables, and other pictorial representations.

Saudi Arabia

South Africa

U.A.E

Rest of MEA

Emergen Research has segmented the global face mask market on the basis of product type, material type, usability, end-use, and region:

Product Type Outlook (Revenue, USD Million; 2018–2028)

Surgical Masks

Respirators

N-series

P-series

R-series

Others

Material Type Outlook (Revenue, USD Million; 2018–2028)

Polyurethane

Polypropylene

Polyester

Cotton

Usability Outlook (Revenue, USD Million; 2018–2028)

Disposable

Reusable

End-Use Outlook (Revenue, USD Million; 2018–2028)

Hospitals & Clinics

Ambulatory Surgical Centers

Research Institutes

Industries

Individuals
