The global cosmetic dentistry market is segmented on the basis of product type, end user, age group and region. By product type, the dental systems and equipment segment dominates the global market in 2020, and is expected to remain dominant throughout the forecast period, owing to factors such as growth in application of novel technologies such as dental CAD/CAM system and others technologies increasing awareness related to dental reformation.

On the basis of age group, the adult segment held the largest cosmetic dentistry market share in 2020, and is expected to remain dominant throughout the forecast period, owing to increase in prevalence of dental disorders such as tooth decay, gum disease, dental crack, and dental cavities. In addition, periodontal diseases in adults also rises the need of cosmetic dentistry procedures as well as increase in awareness about importance of aesthetic appearance among adults especially in women.
