

Architectural Hardware Market Worth \$23,271 Million by 2026- Exclusive Research Report by AMR

The governments of various countries have taken initiatives related to infrastructure developments & Investment in the real estate sector drives the market.

PORTLAND, OR, UNITED STATES, December 9, 2021 /EINPresswire.com/ -- The [architectural hardware market](#) has witnessed substantial rise over the past few years and is expected to record similar growth during the coming years. Increase in

industrialization and urbanization, particularly in the emerging markets, further fuels the architectural hardware market growth. In addition, increase in demand for architectural hardware in the construction industries is expected to drive the market growth during the forecast year.

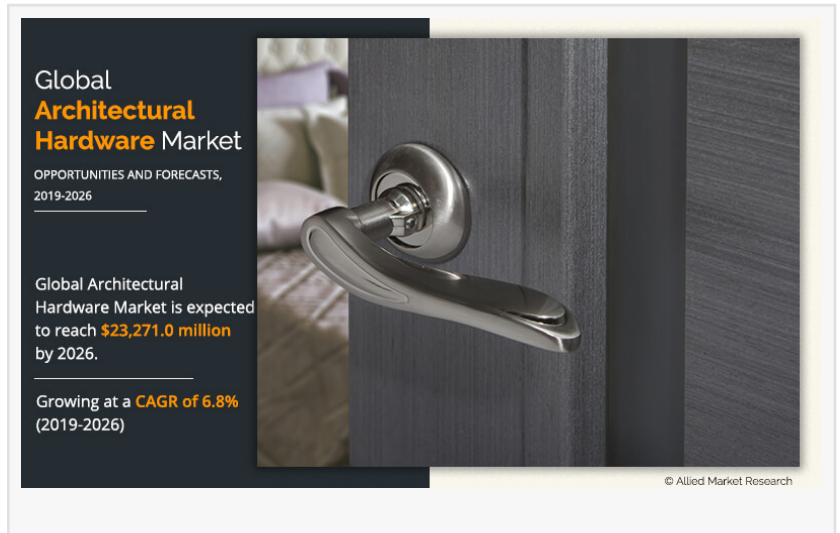

However, rise in cost of steel, and fluctuating foreign exchange are anticipated to hinder the market growth. Furthermore, availability of low-cost and efficient manufacturing particularly in Asia-Pacific and rise in demand for door and window accessories in developing countries provide lucrative growth opportunities for the market.
