CIS

As we get to hear the thoughts of one of the authorities at CIS, he writes, “We are happy with the achievement and it is not just something to celebrate, but an achievement that should be appreciated by each member of the CIS family. I have been associated with the company for about 18 years now and it feels that our efforts to grow as a recognized service provider and an esteemed organization are finally paying off with some great achievements like this. As I see our company’s name in the second position among some of the most famed web design and web application development companies in the US, it doesn’t just make me proud, but motivates us to work hard and set benchmarks in the field of software development.”
