One of the key factors that restrains the demand for

bathtubs in the bathtub market is the lack of space availability in the households, as most of the developing countries face issues regarding the space and installing a bathtub. Furthermore, the

average size of the small bathroom is 3m x 2m, which is not enough to install a bathtub. Moreover, the traditional bathrooms are also preoccupied with other sanitary wares and adjusting a bathtub into it makes it more congested.

The demand for bathtubs in the bathtub market is driven by the expansion of hospitality industry. The desire for travelling is rising by the influence of social media; thereby, increasing the number of travelers globally. Moreover, with rise in number of travelers the service demand for hospitality is rising, which is driving the key players in providing best services at minimum cost. Therefore, the hospitality industry is installing the bathtubs with the facility of spa and skin care for relaxation and comfort to provide better facilities to its customers. Thus, growing hospitality industry is driving the demand for both basic and luxurious bathtubs globally.

The global bathtub market has been majorly impacted amidst the outbreak of the coronavirus. The COVID-19 pandemic resulted in lockdown and widespread restrictions across the world. The offline sales of bathtubs have nosedived across the world, owing to the downfall of consumer goods industry across the world.

Covid-19 Scenario:

- The outbreak of the pandemic made the offline segment witness closure of major distribution channels across the world.
- However, manufacturers are now creating new strategies to recoup from the current situation by means of reforming their sales channels. Also, initiation of mass vaccination drives in most countries is expected to ameliorate the global situation and the market is expected to recoup soon.

The bathtub market is segmented on the basis of type, material, end user, distribution channel, and region. Based on type, the global market is divided into free-standing tubs, alcove tubs, drop-in tubs, and corner tubs. On the basis of material, it is divided into marble, acrylic, ceramic, and others. On the basis of end user, the market is bifurcated into residential and commercial. By distribution channel, it is bifurcated into offline and online. Region wise, the global market is studied across North America, Europe, Asia-Pacific, and LAMEA. North America consists of the U.S., Canada, and Mexico. Europe is studied across the UK, Germany, France, Italy, Spain, and the rest of Europe. India, China, Japan, ASEAN, Australia, and the rest of Asia-Pacific are the countries analyzed under Asia-Pacific, while LAMEA includes Brazil, Argentina, Saudi Arabia, South Africa, and rest of LAMEA.

Key findings of the study:

- By product type, the freestanding bathtub segment is the most popular and is owning the highest bathtub market share, and the corner bathtub segment is likely to witness significant growth with the highest CAGR during the forecast period.
- By material, the ceramic bathtub segment registered the major market share, and the others segment is expected to grow with the highest CAGR during the forecast period.
- By end user, the demand for commercial bathtub is likely to rise in the near future, owing to the growing tourism and hospitality industry.
- On the basis of distribution channel, the offline bathtub segment registered the highest sales as compared to the online distribution channel. However, with growing digitalization, the online distribution channel is expected to grow with the highest CAGR during the bathtub market forecast period.
- According to bathtub market analysis, in 2019, U.S. and Canada were the prominent markets for bathtub in North America.
