

Trisenox Market Depth Analysis and Industry Forecast, 2021-2030

Rise in cancer cases around the globe along with increase in demand for chemotherapy are expected to drive the growth of trisenox market.

PORTLAND, OREGON, US, December 10, 2021 /EINPresswire.com/ -- According to the report by Allied Market Research, titled, "Trisenox Market by Product Type (Arsenic Trioxide 1mg/mL and Arsenic Trioxide 2mg/ml), Application (Adults and Children) and End User (Hospitals, Diagnostic Laboratories, and Others): Global Opportunity Analysis and Industry Forecast, 2021–2030". The report provides a detailed analysis of changing market dynamics, top segments, value chain, key investment pockets, regional scenario, and competitive landscape.

Rise in cancer cases around the globe along with increase in demand for chemotherapy are expected to drive the growth of trisenox market. The medication is primarily used in the treatment of acute promyelocytic leukemia. The drug is administered intravenously, with the dose varying from patient to patient based on body mass index and overall body metabolism. The drug is widely used as and when other chemotherapy treatments have failed to produce positive results on the patient's body. Few of the side effects associated with the medication include rapid heartbeat, nausea, black stools, and increased fatigue.

COVID-19 Impact Analysis:

Pharmaceutical and biotech companies together with the governments around the globe are working to address the COVID-19 outbreak, from supporting the vaccines development to medicine supply chain planning. Approximately around 115 vaccine candidates and 155 molecules are in the R&D pipeline. Moreover, commonly used drugs such as Hydroxychloroquine have witnessed a significant increase in demand for the treatment of COVID-19. Such increased demand for these drugs has presented huge opportunities for manufacturers of COVID-19 treatment drugs, as many developed countries are experiencing shortage of these drugs. Thus, the pharmaceutical and biotechnology industries are expected to witness a significant growth in the future due to the demand for vaccine and the treatment medicines for COVID-19. This is expected to have a significant impact on the trisenox market.
