In the company's most recent news, Greene's Financial has been supporting a greater number of clients in marginalized and disadvantaged minority groups. According to Malik, these communities have not been provided the same amount of social funding, job opportunities, and support compared to wealthier areas.

"While our aim is to support all clients, we've definitely seen an increase in the number of disadvantaged individuals looking to repair their credit," Malik says. "It's been a really rough couple of years for some communities more than others, and it can be difficult to find the support they need – especially when they aren't given equal opportunity to social assistance programs. Fortunately, no matter your background, Greene's Financial can help you achieve a
