more volume to the pillow - these are perfect! I love them both and alternate between the two. I have insomnia, and while these haven't cured that - I'm at least much more comfortable while laying in bed - not tossing and turning :-)

Love these pillows!

These pillows are the best! Super comfortable, and they fluff right back up the next day. I bought these and the wool pillow - they are both super comfortable. These are a bit firmer, more supportive, than the wool one - so if you want a little more softness, I'd go with the wool - if you like more volume to the pillow - these are perfect! I love them both and alternate between the two. I have insomnia, and while these haven't cured that - I'm at least much more comfortable while laying in bed - not tossing and turning :-)
