

Biologics Market Will Benefit From Greater Efficiencies Offered By Technological Developments

*The Business Research Company's
Biologics Market – Opportunities And
Strategies – Global Forecast To 2023*

LONDON, GREATER LONDON, UK,
December 13, 2021 /

EINPresswire.com/ -- Technology is expected to be a continued driver of market growth during this period. An area of particular development is likely

to be physiology simulation modeling. Markets such as this one will benefit from the greater efficiencies offered by developments in this area. For example, Eli Lilly and Pfizer have adopted Amazon's Elastic Compute Cloud (EC2) platform to conduct simulation models in early drug discovery that have been operational within hours, whereas traditional models would have taken weeks to conduct simulations. The Open Innovation Drug Discovery program is another initiative by Lilly to enhance the research and development of biologics.

The global [biologics market size](#) reached a value of nearly \$239.17 billion in 2020 at a rate of -11.1%. The decline is mainly due to lockdown and social distancing norms imposed by various countries and economic slowdown across countries owing to the COVID-19 outbreak and the measures to contain it. The market is then expected to recover and grow at a CAGR of 14.7% from 2021 and reach \$464.60 billion in 2023.

The biologics market is witnessing robust research and development activities. These research and development activities have led to increasing success rates in clinical trials for biologics. Research and development is being carried out by market leaders in the biologics market as they continuously strive to make breakthroughs in the market in the form of new and effective biologics. For instance, Biocon Limited is developing tregopil, an oral prandial insulin to treat patients with type 2 diabetes, which is in phase II/III clinical trials. Currently, insulin tregopil is in

Major players covered in the [global biologics industry](#) are Pfizer Inc., F. Hoffmann-La Roche AG, AbbVie Inc., Merck & Co., Inc., Johnson & Johnson.

TBRC's global biologics market report is segmented by type into monoclonal antibodies (MAbs), therapeutic proteins, vaccines, by distribution channel into hospital pharmacies, retail pharmacies/ drug stores, others, by route of administration into oral, parenteral, others, by drug classification into branded drugs, generic drugs, by mode of purchase into prescription-based drugs, over-the-counter drugs.

Biologics Market - By Type (Monoclonal Antibodies, Therapeutic Proteins, Vaccines), By Route Of Administration (Oral, Others (IV Or IP)), By Drug Classification (Branded Drugs, Generic Drugs), By Mode Of Purchase (Prescription Drugs, OTC Drugs), By Distribution Channel (Hospital Pharmacies, Retail Pharmacies, Online Pharmacies), And By Region, Opportunities And Strategies – Global Forecast To 2023 is one of a series of new reports from The Business Research Company that provides biologics market overview, forecast biologics market size and growth for the whole market, biologics market segments, and geographies, biologics market trends, biologics market drivers, restraints, leading competitors' revenues, profiles, and market shares.
