YGG SEA is the first subDAO born of Yield Guild Games' success. YGG SEA aims to target other underserved Southeast Asian markets through bringing localized operations to better serve the Southeast Asian

"We are thrilled to have YGG SEA as an investor and partner. Partnering with Guilds is a top priority in building the GamesPad ecosystem since all games need players to succeed, thrive and build adoption." — says Eran Elhanani, GamesPad Co-Founder. — "Through this partnership, we can offer much more to gaming, Metaverse, and NFT projects launching on our platform. We look forward to fostering a long-term relationship with YGG SEA." — added Eran Elhanani.

"We are happy to announce YGG SEA as our investor. As one of the leading guilds, YGG SEA will help us establish adoption in Southeast Asia starting with Indonesia, Vietnam, Singapore, and Thailand.
