

Armis named "Best Cybersecurity Vendor for Connected Devices" at the 2021 Cas d'Or Cybersecurity Awards

Recognised for its adaptability, innovation and relevance

PARIS, FRANCE, December 14, 2021 /EINPresswire.com/ -- [Armis](#), the leading unified asset visibility and security platform provider, today announced it has won "Best Cybersecurity Vendor for Connected Devices" at the 2021 edition of the Cas d'Or Cybersecurity Awards in France.

The ceremony, organized by Les Cas d'Or du Digitale, is part of a set of business events that celebrate the best solutions for the digital world in the sectors of technology, advertising, marketing and ecommerce. Armis was selected winner in its category by an independent jury of CISOs and CIOs who praised the adaptability, innovation and relevance of the solution. Having recently announced a [\\$300 million funding round](#), Armis is positioned to keep investing in innovation and fueling its expansion in key regions like France.

Frédéric Benichou, Regional Director, South EMEA and BeLux at Armis said "In the past year, we have seen a raise in the number of cyberattacks involving IT, IoT, OT, IIoT and IoMT devices, marking the emergence of a new battlefield. In France's current environment of change, Armis is taking decisive steps to mitigate this trend and help its customers put in place the right security approach that will allow them to
