Compass Mortgage is one of the fastest-growing mortgage businesses in the country. Their website was outdated and needed not only a new design but a new outlook that captured the family atmosphere and excellence-based culture at Compass. The design is friendly, inviting, and creative. Pops of green invite the user to interact with the website while subtle animations draw the eye down the page. Soul City Church is a prominent church in the West Loop of Downtown Chicago. In the Covid-era Soul City wanted a brighter website that represented the diverse culture within the church. Allison Paige, Soul City's marketing director said, "The Sky Floor has provided our organization with top industry level, innovative, and state-of-the-art work. Professionalism, quality, and customer service are paramount and proven in every project we've done with them!"

To celebrate the completion of these websites and the holiday season, The Sky Floor is giving away an M1 Powered MacBook Air in December 2021. The giveaway is live now and end on December 28th, 2021. The winner will be selected at random on December 30th and announced on their website and social media channels. There are lots of ways to enter and no purchase is required.
