Top Key Players in Recycled Construction Aggregates market: Tarmac, Delta Sand & Gravel Co., LafargeHolcim Ltd., Aggregate Industries Management, Inc., CEMEX, Vulcan Materials Company, CESPA, Green Stone Materials, CRH Plc., and Heidelberg Cement AG.

Market Restraints

Building activity declines during harsh rains and winters around the world, putting a strain on the recycled construction aggregates business. During the forecast period, these factors are projected to limit the growth of the recycled building aggregates market.

Market Opportunities

Mergers and acquisitions are being pursued by key players in the recycled construction aggregates market in order to extend their footprint and, as a result, their customer base. For example, to meet demand in the North American market, Heidelberg Cement AG's U.S. subsidiary Cadman Materials, Inc. purchased Cemex's Pacific Northwest Materials Business,

which includes aggregates, asphalt, and ready-mixed concrete operations.

Report includes analysis on:

Market Environment: Includes sector size, market size, and growth analysis by segmentation.

Competitive Environment: Provides an overview of leading key players, besides analyzing the growth of private labels in the region.

High-potential Countries' Analysis: Indicates changing share of value consumption in the various segments & sub-segments across high-potential countries globally. The report also provides analysis of market assessment, economic development, socio-demographic, governance indicators, and technological infrastructure.

Country Deep Dive: Provides the overview, demographic analysis, and key trends across high potential countries.

Distribution Analysis: Provides analysis of the leading distribution channels.

Challenges and Future Outlook: Provides the challenges and future outlook pertaining to Recycled Construction Aggregates Industry.
