As a passionate transformer, Jeannetta wears many hats. She is proud to say she is the CEO of the founder of [Imaginary Glass Ceiling](#).

Dr. Astell Collins

She is a mindset transformational life coach and business strategist known for her 7figuremindset & 7figurebusinet. Additionally, Jeannetta is a certified Neuro Linguistics Programing (NLP) master coach, an international speaker, an investment strategist in real-estate and market trading, a philanthropist and much more. She has over 25 years of entrepreneurial expertise and has negotiated and

facilitated several startups.

Her parents taught her to dream big and that there was no limitation on her success. From a struggling teen mom to a successful entrepreneur, there is no deterring her from her destiny.

Those moments in her growing up were so inspirational not only to her but also to her six siblings. Every person that she came across spoke positivity and power into her life. They gave her the ability to dream, live her life without fear, and give back to the community through acts of love.

As a young adult, her first career opportunity was as an Asset Manager for a mid-sized real estate investment firm. She worked day and night to impress her bosses. It wasn't unusual for her to spend her lunch breaks working overtime instead of socializing with her peers.

Her goal was to rise to the top. With the work and effort, she had put in to stand out among the rest of the crowd, she thought she would be rewarded at the mid-year review, right? But that wasn't the case. Instead, "lack of fitting in" remarks, met her and the same also became the main topic of conversation in the company. Still, this did not deter her. She worked her way up the ladder, claiming the title of Director of Operations in 2 short years.

As a little girl, Jeannetta's parents told her that whatever she could dream, she could do. No one told her any differently. Therefore, that was and still is her reality. She later jumped into politics for 8 years, started a mortgage company, and then got into commercial real estate. Both endeavors were quite successful.
