There is currently an increasing demand for more reporters and captioners to meet the growing number of employment opportunities available nationwide and abroad. Court reporters and captioners rely on the latest in technology to use stenographic machines to capture the spoken word and translate it into written text in real time. These professionals work both in and out of the courtroom recording legal cases and depositions, providing live captioning of events, and assisting members of the deaf and hard-of-hearing communities with gaining access to information, entertainment, educational opportunities, and more.
