\$750. Dental implants replace a missing tooth root with a titanium screw, topped with an abutment and color-matched crown. This natural-looking tooth replacement can last as long as 15 to 20 years.

“The results are life-changing,” adds Dr. Lang. “Patients can eat again, they are out of pain, and they can smile again.”

Conventional [dentures in Bethlehem](#) Township will start at only \$499. These dentures are removable and custom-made to fit a patient’s smile. Implant overdentures are also available, starting at only \$2,500. They snap onto dental implants and provide extra stability.
