

No Quarter Consulting Teams Up with Abyde to Expand HIPAA Compliance Among Users

TAMPA, FL, UNITED STATES, December 15, 2021 /EINPresswire.com/ -- Today, Abyde announced its latest partnership with No Quarter Consulting, an IT company that provides support and solutions for independent businesses, delivering Abyde's industry-leading HIPAA compliance software solution to No Quarter Consulting users.

As technology advancements continue to take the healthcare industry by storm, healthcare professionals have become more reliant on their electronic health data and IT systems than ever before. This increased dependence on the technology that is accessing and storing sensitive patient data is precisely why healthcare organizations have continued to be the main target of

ransomware attacks. Having a cybersecurity and compliance program in place has never been more important for professionals. Through their most recent partnership with No Quarter Consulting, Abyde continues to make great strides in completing their goal of educating medical practices on the tools they need to identify and protect themselves from cyberattacks.

“

No Quarter Consulting continues to focus on helping our members save time and resources while getting the best solutions possible, and the Abyde program fits squarely into that goal.”
