

3T Pro Now Offering Hourly Consultations

An industry leader in computer support and managed IT services in Dallas is now offering help by the hour.

RICHARDSON, TEXAS, UNITED STATES, December 16, 2021 /

EINPresswire.com/ -- Representatives with [3T Pro](#) today announced that it is now offering hourly consultations.

"Our services are scalable, and we are able to fit your needs based on the project scope, your schedule and your budget," said 3T Pro Vice President of Sales Tommy Gay.

3T Pro, a Dallas IT support and consulting firm serving the wider Dallas area since 1992, provides 24/7 Computer Support and IT Services to a

wide variety of small and medium-sized businesses across Dallas, Ft. Worth, and beyond. The company offers hourly and managed IT Services, Cloud, Project Management, Business Continuity, and more.

There are a variety of benefits to hiring an IT consultant by the hour. A few benefits include:

- Being able to focus on core business functions
- Receiving help from a specialist
- Receiving an outside take on your operations
- Cost-savings
- Increased security
- Improved productivity and efficiency

3T Pro offering hourly consultations comes on the heels of the company offering [three support plans for managed IT services](#), Tommy revealed the plans include Silver Support, Gold Support, and Platinum Support. The Silver plan empowers businesses with a solid network security

foundation and is a perfect standalone service to add a strong layer of security to the business' network.

The Gold plan pairs the security of the Silver plan with the addition of unlimited remote IT support. But that's not all. The organization will benefit from Office 365 subscriptions, disaster recovery backups, email security filters, and much more.

The Platinum package provides all the security of our Silver plan, and all the features of the Gold plan topped off with our full-service technical support services.
