The global epoxy composite market is segmented on the basis of fiber type, end-use industry, and region. By fiber type, the market is classified into glass, carbon, and others (natural fiber and aramid fiber). According to end-use industry, it is divided into aerospace & defense, automotive, electrical & electronics, wind energy, sporting goods, marine, piping, and others. Based on region, the market is analyzed across North America, Europe, Asia-Pacific, and LAMEA.

By region, Asia-Pacific dominated the epoxy composite market, globally, due to the presence of growing automotive & transportation, wind energy, and aerospace & defense industries in the

region. In addition, the presence of large manufacturers of epoxy composites, growing economy, and rapid urbanization in the area are expected to drive the use of epoxy composites in the building, electrical & electronics, pipe & tank, and marine industries. Therefore, high growth in those end-use industries is expected to fuel the region's demand for epoxy resin.
