December 21, 2021 /

EINPresswire.com/ -- Center Valley

Dental is helping children, teens, and adults show off happier, healthier

smiles with an array of high-quality, affordable general and cosmetic dentistry services. Among the most popular services the [Center Valley dentist](#) offers are dental implants.

CENTER VALLEY
DENTAL

Center Valley Dental offers dental implants, cosmetic dentistry, and more.

Dental implants use a titanium screw to replace a missing tooth root. The surgical procedure is completed over several months. Once the implant is placed and the patient's jaw heals, the implant is covered by a color-matched crown that blends in seamlessly with the patient's natural teeth.

"Dental implants fill in your smile, make eating easier, prevent jawbone deterioration, and, most importantly, help improve a patient's confidence," says Dr. Matthew Lang, [dentist in Center Valley](#). "Whether you're 22 or 82, dental implants are a convenient and effective solution."

In addition to dental implants, Center Valley Dental also offers crowns. Crowns change the shape, size, and color of a patient's smile. With CEREC technology, dental crowns in Center Valley can be completed in as little as a single visit.

Other cosmetic services Center Valley Dental offers include veneers, bonding, and tooth whitening. General dentistry services are also available for children and teens.
