

California Mesothelioma Victims Center Urges an Auto Mechanic with Mesothelioma Anywhere in California to Call Attorney Erik Karst of Karst von Oiste About Financial Compensation That Might Be Millions

LOS ANGELES , CALIFORNIA , USA,
February 1, 2022 /EINPresswire.com/ --
The California Mesothelioma Victims Center says, "If you are the family of a current or former auto mechanic who has just been diagnosed with mesothelioma anywhere in California, please call attorney Erik Karst of the law firm of Karst von Oiste at 800-714-0303 to discuss compensation that might be in the millions of dollars. We are especially focused on assisting a neighborhood gas station mechanic that may have been doing car repairs anywhere in California during the

1950s, 1960s or 1970s. These types of people could have had daily asbestos exposure-especially if they were replacing auto brakes, clutches, or transmissions during this time frame.

"We are advocates for people with mesothelioma and we worry that a current or former auto mechanic who has mesothelioma or their family might significantly shortchange themselves for incorrectly thinking their financial compensation may not be worth that much. For honest advice about mesothelioma compensation-we urge a current or former auto mechanic who has this rare cancer to call attorney Erik Karst of Karst von Oiste anytime at 800-714-0303. We think you will be glad you did." www.karstvoniste.com/

For the best possible mesothelioma treatment options in California the California Mesothelioma Victims Center strongly recommends the following health care facilities with the offer to help a diagnosed victim, or their family get to the right physicians at one of these three hospitals:

* UCLA Medical Center Los Angeles, California: <https://cancer.ucla.edu/>

* Stanford Cancer Institute: <https://cancer.stanford.edu/>

The California Mesothelioma Victims Center also wants to emphasize theirs is a statewide unsurpassed service that is available to any diagnosed victim in California including communities such

as Los Angeles, San Diego, San Francisco, San Jose, Riverside, Fresno, Sacramento, Oceanside, Palm Springs, Riverside, or Eureka. <https://California.MesotheliomaVictimsCenter.Com>

High-risk work groups for exposure to asbestos in California include US Navy Veterans, power

plant workers, shipyard workers, oil refinery workers, chemical plant workers, manufacturing workers, plumbers, electricians, auto mechanics, machinists, or construction workers. Typically, the exposure to asbestos occurred in the 1950's, 1960's, 1970's, or 1980's.

Victims Center*

According to the CDC the states indicated with the highest incidence of mesothelioma include Maine, Massachusetts, Connecticut, Maryland, New Jersey, Pennsylvania, Ohio, West Virginia, Virginia, Michigan, Illinois, Minnesota, Louisiana, Washington, and Oregon. However, mesothelioma and asbestos exposure lung cancer happen

to over a thousand people each year in California.
