

Gary Scheer of Gary Scheer LLC in Morristown, New Jersey joins Group Health Consultants as the Managing Director

MORRISTOWN, NEW JERSEY, UNITED STATES, December 16, 2021 /EINPresswire.com/ -- Group Health Consultants has added to its seasoned team of leaders with the addition of Gary Scheer from Morristown, New Jersey. Gary Scheer is joining the team at Group Health Consultants in the role of Managing Director. Mr. Scheer is a Registered Financial Consultant and Certified Senior Advisor with over 35 years of industry experience. He is knowledgeable in many areas of financial planning, from insurance and estate planning to risk management and more.

Group Health Consultants was created in direct response to a need for affordable group health care. It is not a group of ordinary consultants. Instead, it is a forward-thinking company that is committed to finding the best benefit plans for businesses and their employees while setting trends and meeting evolving insurance industry demands. With the continued increases of group health insurance costs, it has become more difficult for employers to offer their employees necessary health insurance coverage while maintaining a reasonable health insurance budget.

Gary Scheer and the team at Group Health Consultants design plans to drastically reduce administrative, medical services, and prescription costs. The end result is a group health plan that provides the same benefits but at a much lower cost to the business and its employees long term. The national average cost of health insurance per employee per year is \$15,500, whereas with Group Health Consultants the average cost for a client is \$8,900. Group Health Consultants is a coalition of health insurance reduction consultants that are dedicated to saving employers money while providing exceptional benefits to the represented employees.

Their team of experienced health insurance consultants uses their decades of experience and wide-ranging industry knowledge to deliver creative and proven approaches for overcoming high health insurance costs by introducing forward-thinking solutions. Through innovative self-funded and alternatively funded plans they are able to provide many services to their clients, including health insurance cost reduction, prescription cost reduction, wellness programs, and health insurance group consortiums.
