

# Innotech Process Equipment Unveils Flat and Lug Dumper

*New solution automates delivery of berries to process lines*

BELLINGHAM, WA, UNITED STATES,  
December 28, 2021 /

EINPresswire.com/ -- [Innotech Process Equipment](#) has designed an automated [flat and lug dumper](#) to extend it's line of berry processing equipment, greatly improving and accelerating the movement of berries along a process line.

Innotech [flat and lug dumpers](#) are designed to take advantage of complete automation. They easily transfer to hoppers or conveyor belts at an even rate, which is ideal for feeding category sorters. These dumpers feature touch screen interfaces driving both conveyors and dumping rotators. Innotech currently offers flat and lug dumpers in single, double, and triple lanes, and they can be further customized based on individual need. With units already in Spain, Chile, Canada, the Netherlands and the US, these models continue to set new standards in container dumping solutions.

**Scalable:** With single, double, and triple lane dumpers you can use any combination that suits your needs.

**Versatile:** Innotech flat and lug dumpers are designed to work with any standard flat or lug. They

can also be used together at the same time.

User Interface: Innotech flat and lug dumpers feature easy to understand touch screen user interfaces with built-in security.

Cleanliness: Innotech flat and lug dumpers are made of stainless steel, are designed for harsh process facility environments, and are completely washdown.
