

# Lysine Market Size, Share & Growth | Industry Trends & Forecast Till 2028

*Lysine is an amino acid present in beans, yogurt, wheat germ, cheese, meat, milk, and yeast. It is essential for both humans and animals*

NEW YORK, NEW YORK, USA, December 19, 2021 /EINPresswire.com/ -- The global [Lysine Market](#) report published by Reports and Data offers a panoramic overview of the Lysine market with regards to market size, market share, future trends, current factors driving growth of the market, and validated market data. The report provides an extensive analysis of the impact of COVID-19 on the current market scenario and key insights into the future outlook of the market growth. The report also discusses the market segmentation by types, applications, and key regions.

Lysine is an amino acid present in beans, yogurt, wheat germ, cheese, meat, milk, and yeast. It is essential for both humans and animals. This amino acid is derived from foods such as wheat and maize, and its bio-availability is reduced by food preparation procedures. Human/animal bodies, on the other hand, are unable to produce lysine naturally, which is predicted to boost demand for lysine. It is an essential component of numerous metabolic processes in both animals and humans. The industrial technique of lysine synthesis is microbial fermentation of sugar substrate. However, lack of feedstock has compelled producers to investigate the possibilities of other raw materials for lysine synthesis such as cassava and methanol.

Key companies in the market include –

- Global Bio-Chem Tech
- Theil Jedang Corp.
- Cofco Biochemical (Anhui) Co. Ltd.
- Bartek Ingredients Inc.
- Changmao Biochem
- Buso Chemical Co.Ltd
- Chemicalbook
- Thirumalai Chemicals Ltd.
- Brinova Group Llc.
- The Chemical Company.
- Yongsan Chemicals Inc.
- Bolynt
- Wego Chemical Group
- Huntsman International Llc.

- Mitsubishi Chemical Corporation.
- Lonza
- Ajinomoto Animal Nutrition
- Daesang Corporation.
- Archer Daniels Midland Company
- Eocus Technology Co, Ltd
