

# Enteral Collagen Peptide Protein Market Revenue Growth, Qualitative Analysis, Quantitative Analysis

*COVID-19 pandemic is a global public health issue and is anticipated to hinder the growth of the global enteral collagen peptide protein market.*

PORTLAND, OREGON, UNITED STATES, December 17, 2021

/EINPresswire.com/ -- The surge in the prevalence of chronic diseases, the rise in the geriatric population, and the expansion in the number of malnutrition cases drive the growth of the global enteral collagen peptide protein market. However, poor demand in underdeveloped countries hinders the market. On the other hand, growth potential in emerging markets will create new opportunities for market players in the future.

The report offers detailed segmentation of the global enteral collagen peptide protein market based on form, age group, end-user, and region. The liquid segment is accounted for the largest market share in 2020, contributing to nearly 90% of the total share. The segment is expected to lead the market during the forecast period. On the other hand, the powder segment is estimated to witness the fastest CAGR of 8.8% from 2021 to 2030.
