The global food & beverages industry comprises several key segments including packaged foods, functional food & beverages, organic food, canned food, baby food, animal food, food ingredients and additives, and packaging. Robust growth of the industry growth is majorly attributed to rising population worldwide, an upsurge in demand for food, the expanding agricultural sectors, and escalating demand for functional foods and beverages. Surging demand for packaged and processed foods, increasing number of restaurants and cafes, growing trends of take-outs and online food delivery, and rise in demand for organic foods and natural foods ingredients, especially among health-oriented consumers, are other factors that have driven the growth of this industry over the last few years. The latest report focuses on the emerging growth opportunities for the market, such as rising popularity of plant-based or vegan food products, growing adoption of eco-friendly and recyclable food packaging solutions, and development of advanced food processing technologies such as nanotechnology and UV treatment.

For this study, Reports and Data has segmented the global Buckwheat Flour market based on Forms follows.

Market segment based on Form:

- Light
- Dark
