

Flower Turbines Awarded the “Solar Impulse Efficient Solution” Label

The Wind Tulips, small and innovative wind turbines by Flower Turbines, Inc., were attributed the “Solar Impulse Efficient Solution” Label.

LONG BEACH, NY, UNITED STATES,
December 20, 2021 /

EINPresswire.com/ -- [Flower Turbines](#) has been awarded the “[Solar Impulse Efficient Solution](#)” Label, a proof of high standards in profitability and sustainability to protect the environment.

The Wind Tulips, small and innovative wind turbines that combine low noise, beauty, and efficiency by Flower Turbines, Inc., were attributed the “Solar Impulse Efficient Solution” Label following an assessment performed by external independent experts and based on verified standards. It is thereby joining the #1000solutions challenge, an initiative by the Solar Impulse Foundation to select solutions that meet high standards in profitability and sustainability and present them to decision-makers to fast-track their implementation.

Flower Turbines is a US company with an important branch in the EU that has the goal of making small wind as powerful a force in renewable energy

Bouquet of Wind Tulip Turbines

Large Size Turbine

as solar by using its multiple patents to create a wind turbine that meets all the needs of urban and suburban environments. It combines aerodynamic innovations with beautiful design and bird friendliness. Unlike other turbines, they make each other perform better when tightly packed together, so that they produce more energy per square meter in a windy area than solar. They also work very well with solar to balance a grid or microgrid, thereby decreasing the need for expensive battery storage. Flower Turbines is currently focusing on corporate and government clients. The products are active in the EU. Contact

To receive the "Solar Impulse Efficient Solution" Label, the [Wind Tulip](#) was thoroughly assessed by a pool of independent experts according to 5 criteria covering the three main topics of

Feasibility, Environmental and Profitability. All labelled solutions are part of the #1000solutions portfolio that will be presented to decision-makers in business and government by Bertrand Piccard, Chairman of the Solar Impulse Foundation. The aim of this initiative is to encourage the adoption of more ambitious environmental targets and fast-track the implementation of these solutions on a large scale.

The “Solar Impulse Efficient Solution” Label is one of the first labels for positive impact businesses bringing together protection of the environment and financial viability, the “Solar Impulse Efficient Solution” Label is attributed following an assessment performed by external independent experts. In collaboration with renowned institutions, solutions applying for the label must go through a neutral methodology based on verified standards. This label serves as an award for clean and profitable solutions.

The Solar Impulse Foundation is dedicated to accelerating the implementation of clean and profitable solutions. Moreover, the Foundation is helping decision-makers in businesses and governments to achieve their environmental targets and adopt more ambitious energy policies, which are necessary to pull these solutions to market. A way to carry the success of the first solar-powered flight around the world further.
