

Neural Script Education Emerges as The Top Ed-Tech Platform to Secure a Dream IT Job

Neural Script Education is an interactive e-learning platform making learning accessible to everyone by offering instructor-led courses & 24/7 on-demand support

INDIA, December 21, 2021

/EINPresswire.com/ -- There are numerous online education marketplaces on the Internet. And then there is [Neural Script Education](#). They are the fastest growing education marketplace with the highest course completion rate in the industry.

This new Ed-Tech Start-up is the leading Global Marketplace for Learning and Instruction, based for IT students, like AI, Data Science, Cyber Security, Digital Marketing in Business Development, or Data Analysis.

This alternate platform is for students who wish to continue and complete courses by attending online courses, using a team of ridiculously committed educators who will stop at nothing to impart education. There are 5,000 learners enrolled at Neural Script Education. They offer more than ten innovative courses.

“

Neural Script Education provides an industry-based education with a 1-time fee and lifetime updates, helping students crack their dream jobs in the IT sector”

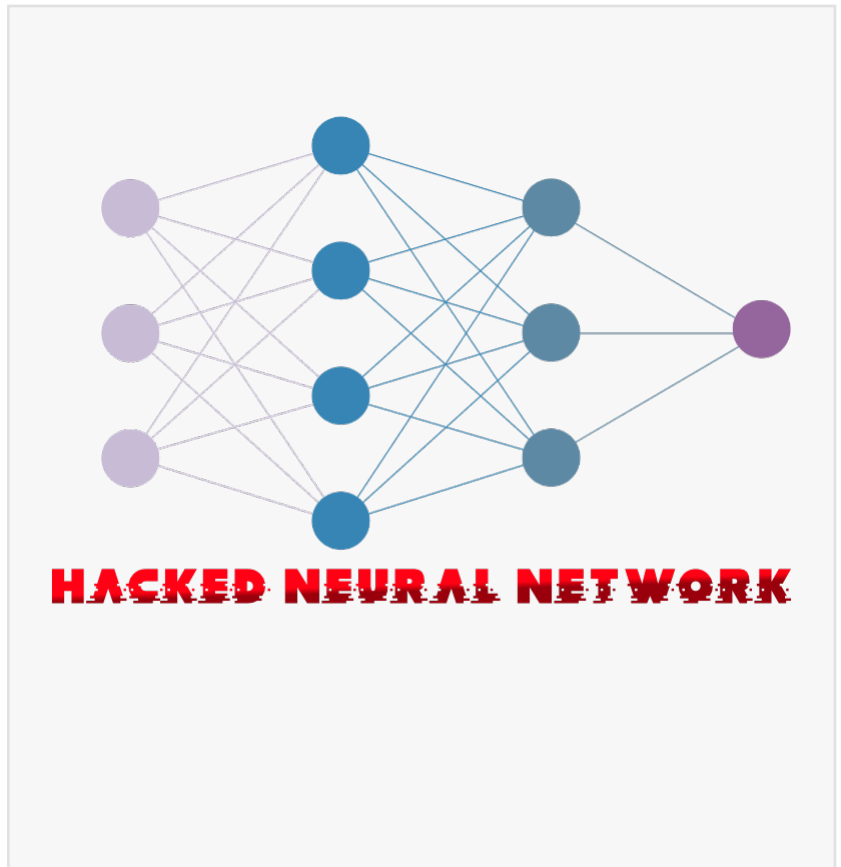

*Yogendra Singh Rathore
(Founder)*

Neural Script Education (OPC) Pvt. Ltd was founded in 2019, officially registered in 2021. Before the covid-19 pandemic, they had an offline module with 100+ students with 80% success in jobs. When Covid-19 halted the process of on-campus education, they started planning to set up online and start providing online education. And

here they are! The goals of Neural Script Education are:

- They target the Hindi language audience because most Indians know Hindi, and it's easy to understand. Then other languages.
- Low-cost education and updated knowledge.
- Lifetime access with updates of the course.

The mind behind this concept, the founder of Neural Script Education, is alone in this business, and the main aim is to provide the best education for IT students and job-ready skills. Low price education. Real-time learning as per industry. Proper skill set course for the job.

He shared: " I completed 20+ certificates courses from top institutes and I found 3 bugs in top companies. After all these achievements I realized paying for multiple courses is not good and they are not providing proper education. so I came with this idea to provide an industry-based education with a 1-time fee and lifetime updates. Our courses are well-explained providing all the key knowledge that will help students crack their dream jobs in the IT sector. "

One of their students shared their feedback saying "I cannot believe I can now learn and develop so many skills without having to buy individual courses separately. With just a one-time fee I am able to learn everything I need to learn like Python, SQL, Data Analysis, Machine Learning, Deep Learning, NLP, Docker, Deployment, AWS, and more. Thank You Neural Script Education"

To help software engineers start their careers, they are also offering many courses for free in popular categories like python, SQL & Data Structures, and algorithms.
