

# Dental Liners and Bases Market Statistics 2028: Innovation and Product Optimization to Boost Growth

---

*Dentists utilize dental liners/bases to improve the outcome of treating dental caries along with other dental restoration procedures.*

PORTLAND, OREGON, UNITED STATES, December 21, 2021 /EINPresswire.com/ -- According to the report by Allied Market Research, titled, "[Dental Liners and Bases Market](#)" by Material (Zinc Oxide Eugenol, Glass Ionomer, Resin Modified Glass Ionomers, and Others) and End User (Hospitals, Dental Clinics, and Research & Academic Institutes) - Global Opportunity Analysis and Industry Forecast, 2021-2028". The report provides a detailed analysis of changing market dynamics, top segments, value chain, key investment pockets, regional scenario, and competitive landscape.

Dentists utilize dental liners/bases to improve the outcome of treating dental caries along with other dental restoration procedures. Manufacturers of dental materials are constantly introducing new versions of existing products (including addition of polymers and silver in the prime material), and research studies are being conducted to analyze the efficacy of these newly introduced dental liners/bases. Thus, with increase in number of dental restoration procedures, the need for new dental liners/bases material has also emerged. In addition, surge in demand for dental liners/bases materials exhibiting bactericidal properties has been witnessed over the years, which is expected to propel the market growth.
