Dairy Industry in Bihar

The dairy industry involves the production and processing of animal milk for human consumption. The milk obtained from cows, buffalos, sheep and goats is further utilized for preparing some of the widely consumed dairy products, such as yogurt, ice cream, cheese, butter and cottage cheese. They are a rich source of proteins, calcium, zinc, [vitamins](#) and magnesium. Consequently, their consumption aids in improving the bone health of the consumers while ensuring their overall wellbeing.

As the novel coronavirus (COVID-19) crisis takes over the world, we are continuously tracking the changes in the markets, as well as the industry behaviours of the consumers globally and our estimates about the latest market trends and forecasts are being done after considering the impact of this pandemic.

Dairy Industry in Bihar Market Trends:

The dairy industry in Bihar is majorly driven by the increasing investments by government and private agencies to upgrade the existing dairy infrastructure. Moreover, rapid digitization, the increasing adoption of automation and the rising penetration of high-speed internet connectivity across the state are providing an impetus to the market growth. The widespread popularity of the e-Gopala mobile application across Bihar that provides pertinent information, such as cattle health and dietary requirements, is also creating a positive outlook for the dairy industry. Other

factors, including the rising demand for organic dairy products in the state due to the increasing health-consciousness among the masses and their inflating disposable incomes, are contributing to the market growth further.
