

# Electrosurgical Devices Market Business Opportunities, Competitive Landscape and Industry Analysis Report by 2027

*Electrosurgical Devices Market Trends – Increasing demand for the minimally invasive surgeries*

CANADA, BC, VANCOUVER, December 26, 2021 /EINPresswire.com/ -- The global [Electrosurgical Devices Market](#) will be worth USD 7.62 Billion by 2027, according to a current analysis by Emergen Research. The growth of this market can be attributed to the increasing investments of the major market players to produce technologically advanced

electrosurgical devices. The high prevalence of obesity and cardiovascular diseases among the population is expected to drive the growth of the market over the forecast period. The report is formulated with the updated and latest information of the global Electrosurgical Devices market further validated and verified by the industry experts and professionals. The report sheds light on the mergers and acquisitions, collaborations, joint ventures, brand promotions and product launches, agreements and partnerships, and corporate and government deals. Moreover, the adverse effects of the coronavirus pandemic on the global Electrosurgical Devices market, as well as its fundamental segments, have also been elucidated in this report. The pandemic has led to some devastating effects on the global economy, besides disrupting the functioning of the Electrosurgical Devices industry.

Lack of skilled professionals and the high cost of surgeries might be a barrier to the growth of the market over the forecast period. Stringent rules and regulations of the government regarding product approval are expected to hamper the development of the industry. Increase in the number of product recalls due to safety issues will restrict the industry's growth. The latest research report by Emergen research, named 'Global Electrosurgical Devices Market - Forecast to 2027', entails a comprehensive review of the global Electrosurgical Devices market's present and future trends. The report additionally sheds light on the emerging growth opportunities in the business sphere that are anticipated to bolster the growth of the market. A clear outline of the competitive landscape of the market is expected to help businesses involved in this sector

decipher the optimal business moves to reach their desired business goals.

### Key Highlights From The Report

In June 2020, Boston Scientific announced the launch of the DIRECTSENSE™ technology. The technology is a tool for monitoring the effect of radiofrequency (RF) energy delivery during cardiac ablation procedures.

Bipolar held the largest market share of 61.5% in the year 2019 due to the wide application of the bipolar segment in the cases related to neurosurgery or otolaryngology.

The Active Electrodes is forecasted to grow with the fastest CAGR of 6.4% over the forecast period due to the increasing technological advancement of the active electrodes.

The increase in funding of the government in order to establish innovative technologies and to improve the healthcare infrastructure is most likely to present lucrative opportunities for the market players over the forecast period. The growing number of cosmetic surgeries due to the rising investments in aesthetic procedures are projected to drive the demand for the devices.

Growing awareness among the population about the advanced surgical procedure presents growth opportunities for the market players. The Global Electrosurgical Devices Market Report offers extensive knowledge and information about the Electrosurgical Devices market pertaining to market size, market share, growth influencing factors, opportunities, and current and emerging trends. These facts and figures help readers evaluate the global market growth, production, and consumption rates, volatility in demand and product prices, and upcoming market trends over the projected period.

Key participants include Olympus Corporation, Covidien PLC, Boston Scientific, Ethicon, Inc., B. Braun Melsungen AG, Bovie Medical Corporation, Smith and Nephew, Medtronic PLC, Johnson & Johnson, and Conmed Corporation, among others.

<https://www.emergenresearch.com/industry-report/electrosurgical-devices-market>

The report aims to deliver a comprehensive understanding of the Electrosurgical Devices market growth and expansion in each key region of the world. It offers accurate estimations about the expected market size and growth over the projected timeline of 2020-2027.

### Key Geographies Profiled in the Report:

North America(the U.S., Mexico, and Canada)

Asia Pacific(China, Japan, India, and Rest of Asia Pacific)

Europe(the U.K., France, Germany, and Rest of Europe)

Latin America(Brazil and Rest of Latin America)

Middle East & Africa(GCC Countries and Rest of Middle East & Africa)

Additionally, the report provides an extensive analysis of the Electrosurgical Devices market, including key data, such as factors influencing the growth of the market, buyers and vendors, production and consumption, and revenue. To gain a better understanding, the report is further segmented into sections such as product types offered by the market, application spectrum, companies, and key geographical regions where the market has established its presence.

Furthermore, the report provides a comprehensive overview of the Electrosurgical Devices market along with product portfolio and market performance. The report offers key insights into

market share, supply chain analysis, demand and supply ratio, import/export details, and product and consumption patterns.

Emergen Research has segmented the global Electrosurgical Devices Market on the basis of Method, Product, Surgery Type, and region:

Method Outlook (Revenue, USD Billion; 2017-2027)

Bipolar

Monopolar

Product Outlook (Revenue, USD Billion; 2017-2027)

Active electrodes

Electrosurgical Generators

Dispersive Electrodes

Electrosurgical Instruments and Accessories

Surgery Type Outlook (Revenue, USD Billion; 2017-2027)

Gastroenterology

General surgery

Gynecology

Cosmetic

Neurosurgery

Cardiovascular

Urology

Orthopedic

Others

Report Highlights:

The report scrutinizes the salient factors influencing the growth of the market in the near future.

Besides offering a vivid depiction of the global Electrosurgical Devices business sphere and its fundamental operations, the latest report provides the industrial chain analysis and list down the current and future market trends and growth opportunities.

The report sheds light on the prominent market contenders, as well as their business strategies and long-term expansion plans.

The report includes information on the present and historical market scenarios, which helps forecast the market conditions over the next eight years (2020-2027).

Table of Content

Chapter 1. Methodology & Sources

1.1. Market Definition

1.2. Research Scope

1.3. Methodology

1.4. Research Sources

1.4.1. Primary

1.4.2. Secondary

1.4.3. Paid Sources

1.5. Market Estimation Technique

## Chapter 2. Executive Summary

### 2.1. Summary Snapshot, 2019-2027

## Chapter 3. Key Insights

## Chapter 4. Electrosurgical Devices Market Segmentation & Impact Analysis

### 4.1. Electrosurgical Devices Market Material Segmentation Analysis

### 4.2. Industrial Outlook

#### 4.2.1. Market indicators analysis

#### 4.2.2. Market drivers analysis

##### 4.2.2.1. Increased use of minimally invasive surgeries

##### 4.2.2.2. Rising incidence of chronic disease

##### 4.2.2.3. Growing geriatric population

##### 4.2.2.4. Technological advancements in Electrosurgical Devices

#### 4.2.3. Market restraints analysis

##### 4.2.3.1. Lack of skilled Professional in the field

##### 4.2.3.2. Stringent regulatory frameworks regarding the approval

##### 4.2.3.3. Increasing number of product recalls

##### 4.2.3.4. Present challenging economic conditions due to the pandemic

### 4.3. Technological Insights

### 4.4. Regulatory Framework

### 4.5. Porter's Five Forces Analysis

### 4.6. Competitive Metric Space Analysis

### 4.7. Price trend Analysis

### 4.8. Covid-19 Impact Analysis

Research Report on the Electrosurgical Devices Market Addresses the Following Key Questions:

Which regional market is anticipated to have a high growth rate over the projected period?

What consumer trends and demands are expected to influence the operations of the market players in the Electrosurgical Devices market?

Who are the dominant players of the Electrosurgical Devices market?

Request customization of the report: <https://www.emergenresearch.com/request-for-customization/210>

Thank you for reading our report. If you have any requests for customization of the latest report, kindly get in touch with us. Our team will assist you and ensure the report is designed as per your requirements.
