center of interest.

In the market, there are a huge range of shades, which covers all needs and preferences. If the space has a vintage aesthetic, then choose colors that give a romantic style, such as pastels.

On the other hand, if the atmosphere of the space is more modern, create a visual interest, choose bright colors, to make each of these surfaces the statement piece of decoration. Get

inspired by the ideas that follow.

If you are afraid to add color to a huge area of the home, then try changing a smaller one, such as a bedroom door. Choose one or two light shades to combine on it.

Paint a space in the same shade - For the more adventurous, there is also another solution. Paint the walls, doors and ceiling of a space in the same shade, which will replace the classic white and will highlight its furniture.

Make an artwork on a wall - A white wall gives an opportunity to show all the talent or the taste. Choose between floral designs or a modern abstract pattern, which will turn everyone's eyes on it and change the dimension of the space. Even in this way change any room's theme, without adding unnecessary accessories.

An experienced workshop of painters provides the necessary support before, during and after the completion of every painting project. Before starting any work, a sufficient picture of the final result will be given. Accurate final cost and the exact schedule, before any deal is even closed. Painters focus on using modern equipment and reliable materials.
