

The global chipless RFID market was estimated to account for US\$ 955.3 Mn in terms of value in 2019.

#3200, SEATTLE, WASHINGTON, UNITED STATES, December 27, 2021 /EINPresswire.com/ -- United States/WA: The global [Chipless RFID market](#) is estimated to account for US\$ 5,190.6 million by 2027

Chipless RFID (Radio Frequency Identification) tags are RFID tags that do not require micro-chip in the transponder. Some tags use plastic or conductive polymers instead of silicon-based microchips. Chipless RFID tags tend to work over a wider temperature range and are also less sensitive to RF interference. Chipless tags are widely used in item-level tagging, banking cards, and banking cards, among others. They are also used for anti-counterfeiting, asset tracking, air baggage, smart tickets, animal tracking, and high volume secure documents. In short, Chipless RFID is an evolving wireless technology for automatic identifications, tracking, security and surveillance, logistics, database management, and inventory control. Over the past few years, great efforts have been devoted to the design of RFID tags without chip inside. The demand for RFID tags has recently increased due to the development of the RFID.

Chipless RFID

Get a PDF Brochure of the Report to understand the structure of the complete report: (Including Full TOC, List of Tables & Figures, Chart) @ <https://www.coherentmarketinsights.com/insight/request-pdf/3367>

The Coherent Market Insights report shows a qualitative and quantitative research study on a Chipless RFID Market Perspective that includes substantial in-depth information on numerous elements. The Chipless RFID Market research study includes a complete overview of the business

scope, growth margins, important factors, kinds, applications, company ups and downs, newest trends, updates, technology, innovation, and a focus on SWOT analysis from 2021 to 2027.

The Study Include Key Companies:

Zebra Technologies Corporation,
Spectra Systems, Molex Inc.,
Xerox Corporation,
Politronica Inkjet Printing S.r.l.,
Vubiq Networks Inc.,
Thin Film Electronics ASA,
TagSense Inc.

Key Developments:-

1. Major market players are focused on partnerships and collaborations, in order to gain competitive edge in the market. For instance, in January 2017, Thin Film entered into partnership with Beneli AB, which is a self-adhesive label and related solution provider based in Europe. Thin Film and Beneli are collaborating to deliver Thin Films NFC solutions with SpeedTap and Open Ensenada tags that are supported by a cloud-based software platform.
2. Key companies in the market are involved in product development, in order to enhance their market presence. For instance, in January 2019, Vubiq Networks Inc. developed Millimeter Wave RFID Hyperimaging System.

Purchasing the Report: Know Why:-

- ✦ The Chipless RFID market study is a detailed examination of research material tools and downstream purchasing enhancements.
- ✦ This research is to characterize and categorize the market in order to provide the reader with a thorough overview.
- ✦ Elaborate client needs reviews, obstacle analysis, and opportunity assessment are also covered.
- ✦ The report polls also generate the most accurate forecasts for worldwide Chipless RFID market volume and value estimation.

Key Features of Report:-

- Market Overview, and In-depth industry analysis
- COVID-19 Pandemic Outbreak Impact Analysis Included

- Updated Research Methodology
- SWOT Analysis & Porter's Five Forces Analysis
- Graphical Representation of Size, Share & Trends
- Includes Updated List of tables & figures
- Comprehensive Mapping of the Competitive Landscape
- Updated Report Includes Top Market Players with their Business Strategy, Sales Volume, and Revenue Analysis
- Value Chain, Market Drivers, and Success Factors
- Facts and Factors research methodology

About Us:-

Coherent Market Insights is a global market intelligence and consulting organization that provides syndicated research reports, customized research reports, and consulting services. We are known for our actionable insights and authentic reports in various domains including aerospace and defense, agriculture, food and beverages, automotive, chemicals and materials, and virtually all domains and an exhaustive list of sub-domains under the sun. We create value for clients through our highly reliable and accurate reports.
