The SEC just published Flower Turbines' intention to make a 1-for-10 forward stock split on Dec. 31 at <https://bit.ly/3HiOoRE>. This will take effect for the current investors 6 months after the round concludes on Dec. 30 to allow time for Startengine to confirm investments. In simple terms, instead of the current \$70 share, the owner will have ten \$7 shares.

Flower Turbines is a US company with an important branch in the EU that has

the goal of making small wind as powerful a force in renewable energy as solar by using its multiple patents to create a wind turbine that meets all the needs of urban and suburban environments. It combines aerodynamic innovations with beautiful design, low noise, and bird friendliness. Unlike other turbines, they make each other perform better when tightly packed together.
