Allied Market Research has segmented the Bicycle Market report on the basis of Sales , End User ,Type

By sales channel, the physical stores segment dominated the market in 2019, accounting for \$17,628.1 million, and is estimated to reach \$20,164.4 million by 2027, at a CAGR of 1.7%. This is attributed to the fact that customers can easily procure required products from physical stores. In addition, customers are given personal attention by the sales staff at these stores. Furthermore, the queries and issues are resolved immediately in physical stores.

Depending on end user, the men segment exhibited the highest growth in 2019, generating revenue of \$8,990.5 million, and is estimated to reach \$12,301.8 million by 2027, registering a CAGR of 4.0%. This is attributed to increase in interest of sports and leisure activities among

men. Furthermore, in bicycle events, men athletes have witnessed higher fan following in comparison to women and kids.

On the basis of type, the non-cargo electric bicycle market segment was the highest contributor to the market, with \$12,712.4 million in 2019, and is estimated to reach \$17,580.4 million by 2027, at a CAGR of 4.1% during the bicycle market forecast period. This is attributed to technological advancements in bicycles such as integration of durable batteries and designing bicycles with light fiber body materials.
